

Fool

Shakira

1. Tell me lies, slap me on the face, Just...
Improvise, do something really clever,
That'll make me hate your name forever

You might swear, you'd never touch a lady
Well, let me say, you're not too far from maybe
Every day you find new ways to hurt me

R: But I can't help it if I'm just a fool
Always having my heart set on you
'till the time you start changing the rules
I'll keep chasing the soles of your shoes
Ahh..., fool

2. God resigned, from hearing my old story
Every night, I'm paying hell for glory
I'm embarrassed but I'm much more sorry

All this pain, begins to feel like pleasure
With my tears, you'd make a sea, a desert
Salt my wounds and I'll keep saying thank you

R: But I can't help it if I'm just a fool...
