

# Islands

Shakira

I don't have to leave anymore  
What I have is right here  
Spent my nights and days before  
Searching the world for what's  
Right here

Underneath and unexplored  
Islands and cities I have looked  
Here I saw  
Something I couldn't over look

I am yours now  
So now I don't ever have to leave  
I've been found out  
So now I'll never explore

See what I've done  
That bridge is on fire  
Go back to where I've been  
I'm froze by desire  
No need to leave

Where would I be  
If this were to go under  
It's a risk I'd take  
I'm froze by desire  
As if a choice I'd make

I am yours now  
So now I don't ever have to leave  
I've been found out  
So now I'll never explore

I am yours now  
So now I don't ever have to leave  
I've been found out  
So now I'll never explore

See what I've done
