Hold me
Show me all the talent God has given you
I want us thinking outside the box (all night long)
Just keep on going

You've done good things for me
Though I'm not an easy girl to please
I'll never run out of faith in you (all night long)
Just keep on going

Long time long time
That's the way I've loved you baby
Long night it's been a long night
I'm breaking the record, told ya

Long time long time
The minutes are eternal lately
Long night it's been a long night
Can't wait to touch you, touch you

I wish I had longer legs
That I could fasten to your body so you'd take me with you everywhere
And when you think I can take no more (all night long)
Just keep on going

If I let you have your way don't think I'm weak You got the stamina and the technique So let those eloquent hands of yours (all night long) Just keep on going

Long time long time
That's the way I've loved you baby
Long night it's been a long night
I'm breaking the record, told ya

Long time long time
The minutes are eternal lately
Long night it's been a long night
Can't wait to touch you, touch you

This thing we've got's so rare It's so good it's not even fair So how could anything compare To your way, no way

How can you do me so much good I'm so happy I should get sued But nothing matters next to you No way, no way

Long time long time
That's the way I've loved you baby
Long night it's been a long night
I'm breaking the record, told ya

Long time long time
The minutes are eternal lately

Long night it's been a long night Can't wait to touch you, touch you
