

# Medicine

Shakira

When I feel like I'm losing my mind  
Banging my head up against the wall  
Staring at nothing 'cause I can't sleep at night  
Can't make it stop, yeah I think too much

What do I do?  
I'm falling apart  
I need a shock  
Straight to my heart  
No one would want to be in my shoes right now, no

I don't reach for the bottle of whiskey  
Straight on the rocks  
You won't see me popping the pills  
Po-po-popping the pills  
Cause if I want the pain to go away  
In a second make it fade  
You're the only thing that will

You're my medicine, medicine  
My my my medicine, medicine  
My my my medicine

You know you're an expert at complicating things  
That's how I'm wired believe me it's no fun  
But you make a war seem like such an easy game  
You kiss me and my arguments come undone

Down in the trenches  
You are the white flag  
Make me surrender  
I want you so bad

Baby don't stop what you started  
Don't ever be done

I don't reach for the bottle of whiskey  
Straight on the rocks  
You won't see me popping the pills  
Po-po-popping the pills  
Cause if I want the pain to go away  
In a second make it fade  
You're the only thing that will

You're my medicine, medicine  
My my my medicine, medicine  
My my my medicine

You make it all better, better  
You make me feel whole

You make it all better, better  
You make me feel whole

I don't reach for the bottle of whiskey  
You won't see me popping the pills  
Cause if I want the pain to go away

In a second make it fade  
You're the only thing that will

You're my medicine, medicine  
My my my medicine, medicine  
My my my medicine

You make it all better, better  
You make me feel whole

You make it all better, better  
You make me feel whole

You make it all better, better  
You make me feel whole

You make it all better, better  
You make me feel whole

You're my medicine
