

# Spy

Shakira

Slow motion  
Blinds are see through  
Let your mind go  
Imagine that I kiss you

Turn off the lights and open up your eyes now  
You can take a glimpse into my soul for tonight

Do you got the heat off girl? Yes I do  
Can you turn up the temperature? You bet I could  
Colombian with a swagger. Yes I am

Whatever it takes to make this thing work we gonna  
Whatever it takes to make this thing work we gonna

There's a spy by my window  
I know it's you  
You like to keep an eye on me  
I know you like to keep an eye on me  
There's a spy by my window  
I know it's you  
Won't you like to keep an eye on me  
I know you like to keep an eye on me  
Keep an eye on me  
But if you want it got to let it be

I know you  
Dream about me  
And it turns me on to think about it  
This is the finest game  
It ain't even got a name  
I just wanna see how far it takes us tonight

Do you got the music on girl? Yes I do  
Can you get a little closer? You bet I could  
Colombian with a swagger. Yes I am

Whatever it takes to make this thing work we gonna  
Whatever it takes to make this thing work we gonna  
Whatever it takes to make this thing work we gonna

There's a spy by my window  
I know it's you  
You like to keep an eye on me  
I know you like to keep an eye on me  
There's a spy by my window  
I know it's you  
Won't you like to keep an eye on me  
I know you like to keep an eye on me  
Keep an eye on me  
But if you want it got to let it be

When the dog's away that's when the cat's play  
You'll be my girl, I'll be the spy  
Like the James Bond flick girl I'm ready to ride

When the cat's away that's when the mouse play

You'll be my girl, I'll be the spy  
Like the James Bond flick girl I'm ready to die, die die

There's a spy by my window  
I know it's you  
You like to keep an eye on me  
I know you like to keep an eye on me  
There's a spy by my window  
I know it's you  
Won't you like to keep an eye on me  
I know you like to keep an eye on me  
Keep an eye on me  
But if you want it got to let it be

Lipstick's on  
Stockings up  
Skirt's short  
Heels are high  
Take your time  
Buckle up

Close your eyes and enjoy the ride  
Close your eyes and enjoy the ride  
Close your eyes ...  
Close your eyes and enjoy the ride
