

B True B You

Shakra

Hey my dear mate what is the matter?
Have you laid your guns?
Come on tell me what is the problem?
Leave it all behind
Do you think I'll let you down?
Do you think you're losing ground?
No more hiding no pretending show them who you are

Breaking free to the limit
Fill your lungs with pride
Spread your wings don't be timid
Get back into the light

Get along on the right lines yeah you'll be fine
You'll be alright - alright you are
Take control take the high road yeah you will rise
You'll be alright - be true be you

Hey my buddy what is the matter?
Wake up from your sleep
Break your demons and pray for deliverance
Try to keep the course
Do you think I'll let you down?
Do you think you're losing ground?
You don't have to stay in that shadow you're so beautiful

Breaking free to the limit
Fill your lungs with pride
Spread your wings don't be timid
Get back into the light

Get along on the right lines yeah you'll be fine
You'll be alright - alright you are
Take control take the high road yeah you will rise
You'll be alright - be true be you

Get along on the right lines yeah you'll be fine
You'll be alright - alright you are
Take control take the high road yeah you will rise
You'll be alright - be true be you

Get along on the right lines yeah you'll be fine
You'll be alright - alright you are
Take control take the high road yeah you will rise
You'll be alright - be true be you
