

Look At Me

Shakra

You stand there in front of me
To join our show, your destiny
You think the man you see lives how you could be

You see my life, it's full of fun
Touring the world, no need to run
Your childhood dreams come true
However, not for you

Look at me now when I'm lying here
Look at me now when I fight the fear
Look at me now while I'm crying
Am I the man you know?
Look at me now, I am near the edge
Look at me now, no one gives a badge
Look at me now, I am trying
Trying to be like you

My picture smiles on TV screens
And even on the magazines
You want to turn back time
But don't know what it means

I treat the girls out you'd like to meet
I break the habit, my world, my lead
Someday I will reach the end of Famous-Street

Look at me now when I'm lying here
Look at me now when I fight the fear
Look at me now while I'm crying
Am I the man you know?
Look at me now, I am near the edge
Look at me now, no one gives a badge
Look at me now, I am trying
Trying to be like you

Our ways are different ways
We chose them long before
But we both know they'll carry on
'Cause it's the best for everyone

You stand there in front of me
To join our show, your destiny

Look at me now when I'm lying here
Look at me now when I fight the fear
Look at me now while I'm crying
Am I the man you know?
Look at me now, I am near the edge
Look at me now, no one gives a badge
Look at me now, I am trying
Trying to be like you
