

If you feel like you're forgotten and alone
Call me I'm your friend
Till the very end
If you pay me well I'll soon be here to tell
You're the very best
Better than the rest

Money is
What you need
To make the world
Go round and round (my friend and)
In this world
Nothing's free
For money makes
The world go round

We will never fight till 3 o'clock at night
Money makes me do
All you want me to
Shall I be the brother
That you never had?
Or your drinking mate
Gonna take my fate

Money is
What you need
To make the world
Go round and round (my friend and)
In this world
Nothing's free
For money makes
The world go round
