## **Mmtwgr**

If you feel like you're forgotten and alone Call me I'm your friend Till the very end If you pay me well I'll soon be here to tell You're the very best Better than the rest Money is What you need To make the world Go round and round (my friend and) In this world Nothing's free For money makes The world go round We will never fight till 3 o'clock at night Money makes me do All you want me to Shall I be the brother That you never had? Or your drinking mate Gonna take my fate Money is What you need To make the world Go round and round (my friend and) In this world Nothing's free

## Shakra

For money makes The world go round
