

## My Life - My World

Shakra

When I'm dreaming, you are there  
No more hard words, no despair  
It's the way it should have been  
Then I wake up and there's only me

Broke your promise, broke our dreams  
You were never what you seemed  
I was foolish, all in all  
No running now when you call

This is my life, this my world  
I'm the one who'll choose the way to go now  
This is my life, this is my world  
And what we'd have had, you'll never ever know

Broke your promise, broke your word  
Ooh, your smile was a two- edged sword  
I was foolish, now one I see  
You were never the one for me

This is my life, this is my world  
I'm the one who'll choose the way to go now  
This is my life, this is my world  
And what we'd have had, you'll never ever know  
This is my life, this is my world  
You thrown away now the best thing in your life
