

# There It Is

Shalamar

There it is, there it is  
What took us so long to find each other, baby?  
There it is, there it is  
This time I'm not wrong

But I knew the answer to why people fall in love  
But then I found I knew nothing about it  
Till I met you, girl, I thought that I had had enough  
Now I'm sure I've always been without it

And it feels so good that you and I can go together  
Ooh baby, we won't find what we've been looking for  
And this time I know we're gonna make it better  
Our heart is a key to pump it at the door  
Don't have to search no more

There it is, there it is  
What took us so long, ooh, to find each other, baby?  
There it is, there it is  
This time I'm not wrong

In the sea of love we set our sails when waters were up  
Two in search of love with no direction  
Fish were biting at the time when catching wasn't enough  
We couldn't make a sport of our affection

And who could change that we would sail into each other  
Ooh girl, I never felt the wave of love so strong  
And this love I never felt in any other  
I trust it like the light, how this guides the ship to land  
I found it when you touched my hand

There it is  
What took us so long for a love so strong?  
There it is, there it is  
This time I'm not wrong

And it's about time  
For love to find its way back home  
Girl, you're mine  
Now that we've found love we've got to get it on

There it is, baby  
There it is, this time I'm not wrong  
Got a love that's so strong

Like the light, how this guides the ship to land  
I found it when you touched my hand

There it is, there it is  
What took us so long to find each other, baby?  
There it is, there it is  
This time I'm not wrong

There it is, hey, what took us so long  
To find the sweet, sweet love?  
There it is

This time I'm not wrong  
This time I'm not wrong  
We got a love that's so strong
