

Look at that man lying in the street
I don't think that's the place to sleep
The government say you can't do that
But nobody's saying where's it at

You don't care, you don't hear, you don't speak
You don't feel it anymore
And it's not what you're fighting for

Big bad wolf come and knock on my door
Big bad wolf didn't like what he saw
The government say you can't do that
And nobody's saying where's it at

You don't care, you don't hear, you don't speak
You don't feel it anymore
And it's not what you're fighting for

Everybody talks about revolution
But some of us know

You don't care, you don't hear, you don't speak
You don't feel it anymore
And it's not what you're fighting for
