

It's Never Too Late

Sham 69

So many people inside of me
I must find the one I want to be
All my life I've wanted to know
It's my life so I can't let go

Everything we say and do
So many people will laugh at you
All my life I've wanted to know
It's my life so I can't let go

It's never too late
To find out who you are
It's never too late
To find out who you are

Sometimes I think am I really me
Sometimes I think am I really you
All my life I've wanted to know
It's my life so I can't let go

It's never too late
To find out who you are
It's never too late
To find out who you are
