Run Wild Run Free

Sham 69

They never seem to care about the things we would
They say while you're young you gotta be good
But they don't know and time won't wait
So be yourself before it's too late

Life is much too short
To throw it all away

Say the old days were a lot of fun
Well if they let us we'll have some fun
But they don't know and time don't wait
So be yourself before its' too late

Run wild run free and never look behind you
The key of life is in your heart
To get to it you gotta play the part

They're leaving us a world that we've got to change
But if you try you'll get blamed
But they don't know and time don't wait
So be yourself before it's too late
