

Wasn't it you that said to me
You need a job and a place to live
Wasn't it me that said to you
You need your education
Wasn't it me that said to you
Wasn't it you that said to me

Wake up, get out of bed
Wake up, your studenthead

Wasn't it you that said to me
I've got to go all the way
Wasn't it me that said to you
You know they're gonna make it pay
Wasn't it you that said to me
Wasn't it me that said to you

Wake up, get out of bed
Wake up, your studenthead
