

Maybe the sky's falling out around the babies
Maybe the world is gonna spin out of control
I don't care anymore
What if I quit today working for the man
And said I've had enough, well, maybe I can
Cause It's all gonna end anyway
Tell me doctor, whats the cure, for the wicked man's blues

Fly Dragonfly
Fly Dragonfly

When the sky, falls to the sea
I won't mind
The cause in me
When the wind burns through the trees,
I won't cry for dragonfly

Fly Dragonfly
Fly Dragonfly

When I come
Get me a piece
Take my advice
Just let me be

When the moon, turns black as night
We'll bathe in the fires,
Of Dragonfly

Fly Dragonfly

Don't take so long
I'll be there before you know
I See you in my mind's eye
Fly dragonfly
Fly Dragonfly
Fly Dragonfly

Fly Dragonfly
