

So Long

Shaman's Harvest

Now for so long you made me sweat
After all this time, what's the benefit
Use your eyes and ears of my life
But if your gone in just one night

Why did it take you so long
Why did it take you so long
Why did it take you so long
It took you so long to leave
Why did it take you so long
Why did it take you so long
Why did it take you so long
It took you so long to leave me

You say wake up, well consider me woke
You say you got your friends but I got your goat
You left me to wait, wait, wait, wait, wait, wait
Here without you
Now your coming to stay, stay, stay, stay
Bitch it ain't always about you

Why did it take you so long
Why did it take you so long
Why did it take you so long
It took you so long to leave
Why did it take you so long
Why did it take you so long
Why did it take you so long
It took you so long to leave me

After all this time why'd it take so long
All this time why'd it take so long
After all this time why'd it take so long
Why just hide, hide, party party

Why did it take you so long
Why did it take you so long
Why did it take you so long
It took you so long to leave
Why did it take you so long
Why did it take you so long
Why did it take you so long
It took you so long to leave me
Why did it take you so long
Why did it take you so long
Why did it take you so long
It took you so long to leave
Why did it take you so long
Why did it take you so long
Why did it take you so long
It took you so long to leave me
