

# Lethal Awakening

Shaman

Prepare to engage !  
Some visions can awake you  
So let it be, let the strings be played.  
Foreseen and recreated, while this monster consumes you  
No delay for is done, unless your bell has tolled

When fate calls out your name  
Self-awareness will save you !  
So let it be, let the strings be played  
Be driven by this rate, as this monster inside of you

However, my eyes are gazed  
No matter what kind of behave  
This shell won't outlive me, no !

And I hear thunder and rain  
This fear can roar but it won't lead the way!  
My compass points north and comes from inside  
Lethal or not, I am awake !

All that I feel deep inside is in vain  
Unless all my actions according to it  
There's no remorse when you're friends with the past  
When we're awake, all makes sense !

And I hear thunder and rain  
This fear can roar but it won't lead the way !  
My compass points north and comes from inside  
I am awake !  
Under fire and rain  
All we have to be is awake !
