

## Pieces

Shamrain

It always ends like this  
My world breaks in little pieces  
And I can breathe no more  
I can't breathe anymore

If I only could  
Forget your face  
If I only could  
Forget everything

It always ends like this  
My worst fears come true  
And I'm lost again  
I'm losing my soul

If I only could  
Forget your face  
If I only could  
Forget everything
