

Baby Let's Dance

Shane Filan

Wohohoho
Wohohoho
Baby blue, I just want you
And that's the truth
Girl I'm in heaven and its going off tonight
Yeah it's a wonderful life
Hey!
I fill your glass with your favourite merlot
Dont even ask
Just turn the lights down low

Cos we're dancing round the room to the radio
Rocking out to smokey and the miracles, I'll take you by the hand
We dont have to undersatnd
Baby lets dance
Wohohoho
Baby lets dance
Wohohoho

Your sweet moves
I got nothing on you
I'm just a fool
But no-one's watching

So lets dance around the room to the radio
Rocking out to smokey and the miracles, I'll take you by the hand
We dont have to understand
Baby lets dance
Wohohoho
Wohohoho

Lets close our eyes and go, to a bar in Mexico
Ya all we need to know, is we're in love
And i feel it in by bones, hey

Dancing around the room to the radio
Rocking out to smokey and the miracles,
I'll take you by the hand
And we don't have to understand
Baby lets dance around the room to the radio

Rocking out to smokey and the miracles I'll take you by the hand
And we don't have to understand
Baby lets dance
Wohohohoh
Baby lets dance
Wohohohohoho
Wohohohohoho
