

# Everything's Gonna Be Alright

Shane Filan

Sometimes life's gonna knock you down  
You're dodging curveballs till you're spinning round and round  
But I know a place where we can go  
We can leave all our troubles right outside the door

So baby don't be afraid  
We can let ourselves go  
Coz we don't have to work tomorrow  
And we can take a taxi home

So glad the week is over  
I can't wait to not be sober  
I'll meet you at the bar  
And we leave our worries in the jar  
Been waiting all day for your red wine kiss  
When I'm with you, you make me feel  
this world is not going to take us down tonight  
And everything's gonna be alright  
Everything's gonna be alright

I think its time we order up another round  
I'll be singing karaoke bringing the ceiling down  
I can't remember now I was making a slow  
All I know is I'm so happy and you're so beautiful  
Baby we're well on our way  
And we are letting ourselves go  
We don't have to work tomorrow and we can take a taxi home

So glad the week is over  
I can't wait to not be sober  
I'll meet you at the bar  
And we leave our worries in the jar  
Been waiting all day for your red wine kiss  
When I'm with you, you make me feel  
this world is not going to bring us down tonight  
And everything's gonna be alright (wo oh, oh)  
Everything's gonna be alright (yeah, yeah)

A little less thinking, a lot more drinking  
A little less talking, a lot more kissing  
(Oh, Ah) I love just being here with you  
A little less thinking, a lot more drinking  
A little less talking, a lot more kissing  
(Oh, Ah) I love just being here with you

So glad the week is over  
I can't wait to not be sober  
I'll meet you at the bar  
And we leave our worries in the jar  
Been waiting all day for your red wine kiss  
When I'm with you, you make me feel  
this world is not going to take us down tonight  
And everything's gonna be alright (wo oh, oh)  
Everything's gonna be alright (yeah, yeah)  
Everything's gonna be alright (wo oh, oh)  
Everything's gonna be alright (yeah, yeah)  
As long as I'm with you
