

Everytime

Shane Filan

You make me laugh in awkward places
you keep me guessing all the time
little things that make me glad you're mine
It's always brighter when you're smiling
you bring the thunder when you're mad
but you're the sweetest thing I've ever had

And when you say you want me here and now
no matter where we are,
I love love love it

And Oh, my heart is racing
the way we kiss is liberating
it feels like we invented love
yeah I'm breathing faster
and I might need to sit down after
it feels like we invented love, every time.

Ohhh Ohhh Ohhh Ohhh

When my head is spinning round and round
I don't know if I'm up or down
It's okay, you've got me figured out
and I don't even need to know,
'cos if you keep your heart on show
surprising me will never get too old

And when you say you want me here and now
no matter where we are,
I love love love it

And Oh, my heart is racing
the way we kiss is liberating
it feels like we invented love
yeah I'm breathing faster
and I might need to sit down after
it feels like we invented love, every time

You're always finding different ways
to keep me on my toes
and if it changes everyday
I don't mind and I don't care
How I still love love love you

Ohhh Ohhh Ohhh Ohhh

And Oh, my heart is racing
the way we kiss is liberating
it feels like we invented love
yeah I'm breathing faster
and I might need to sit down after
it feels like we invented love, every time

Ohhh Ohhh Ohhh Ohhh
Ohhh Ohhh Ohhh Ohhh
