

# I Could Be

Shane Filan

I look at you in frozen eyes  
Cold as ice  
You wanna bring me back  
Back to life  
You say I know better on my own  
But if I'm lonely to the bone  
What a great sacrifice  
Being all locked up inside

I could be the first to let you in  
I could help you find a place again  
Let me be the one to open up  
That door  
I could make the sun come out  
Warm you up and melt you down  
I could be the first to let you in your heart again

Are you searching for somewhere to hide?  
You know I think I am, but wanna try  
We're no better on our own  
If we're lonely to the bone  
We don't have to be tonight  
I will free your mind!

I could be the first to let you in  
I could help you find a place again  
Let me be the one to open up  
That door  
I could make the sun come out  
Warm you up and melt you down  
I could be the first to let you in your heart

I could be the first to let you in  
I could help you find a place again  
Let me be the one to open up  
That door  
I could make the sun come out  
Warm you up and melt you down  
I could be the first to let you in your heart

Oohh Oohh Oohh Oohh Oohh Oohhh  
Oohh Oohh Oohh Oohh Oohh Oohhh  
Oohh Oohh Oohh Oohh Oohh Oohhh  
Oohh Oohh Oohh Oohh Oohh Oohhh

You know I wanna set you free  
Then come to me
