

# In The End

Shane Filan

Don't be scared  
Coz you and me already been there  
Long as I know that you'll be here  
I guess that's all that matters

You've been around  
Every time that I've been down  
You were there you pulled me out  
When I was bruised and battered

You live and you learn  
But now its my turn  
To do what I've got to do  
And I'm doing it all for you

Even when the rain starts pouring  
I won't let it touch your head  
Even when the walls are falling  
I will hold it back and then  
I will turn this song around  
and I'll never let you down,  
even if we have to start again  
we're gonna get there in the end

Wo oh, you know oh, we're gonna get there in the end  
Wo oh, you know oh ohh

Its hard out there  
But no one said that life was fair  
Even through the bad we shared  
I guess that's all that matters  
But we're halfway home  
We never had to walk alone  
Look at all the ways we've grown  
Always still together

You live and you learn  
But now its my turn  
To do what I've got to do  
And I'm doing it all for you

Even when the rain starts pouring  
I won't let it touch your head  
Even when the walls are falling  
I will hold it back and then  
I will turn this song around  
and I'll never let you down,  
even if we have to start again  
we're gonna get there in the end

Wo oh, you know oh, we're gonna get there in the end  
Wo oh, you know oh ohh

Troubles gone without a trace  
Another time another place  
I will look back on these days  
And know you're why I made it...yeah

Even when the walls are falling  
Even when the rain starts pouring  
I won't let it touch your head  
Even when the walls are falling  
I will hold it back and then  
I will turn this song around  
and I'll never let you down,  
even if we have to start again  
we're gonna get there in the end

Wo oh, You know oh, we're gonna get there in the end  
Wo oh, You know oh ohh  
Wo oh, You know oh, we're gonna get there in the end  
Wo oh, You know oh, we're gonna get there in the end
