

# Me And The Moon

Shane Filan

I thought I saw you there  
Holding my hand when you were scared  
Scared of the dark, there's no lights in the park  
Just the love we shared  
How can such a part of me be gone

They say, home is a place where your heart is  
Go back to the road where it started  
Whether it's wrong or it's right  
If you ever wonder, then I'll be  
Back on the street where I met you  
Drawing the stars like we used to  
I wish I was holding you tight  
But it's me and the moon tonight

I swear I saw you there  
Just like the old days with no care  
Down in the garden, the leaves were still falling  
Right by the shed  
How can such a part of me be gone

They say, home is a place where your heart is  
Go back to the road where it started  
Whether it's wrong or it's right  
If you ever wonder, then I'll be  
Back on the street where I met you  
Drawing the stars like we used to  
I wish I was holding you tight  
But it's me and the moon tonight

Me and the moon tonight  
Me and the moon tonight  
Me and the moon tonight

I'll be, back on the street where I met you  
Drawing the stars like we used to  
I wish I was holding you tight  
But it's me and the moon tonight

They say, home is a place where your heart is  
Go back to the road where it started  
Whether it's wrong or it's right  
If you ever wonder, then I'll be  
Back on the street where I met you  
Drawing the stars like we used to  
I wish I was holding you tight  
But it's me and the moon tonight

But it's me and the moon tonight
