

Jump

Shane Harper

Your voice
makes my heart melt like
your smile
lights up the room and I can't
help myself
try and keep myself from falling
I don't know
if this is magic
one wish , yeah
then it happened
just one kiss
from your sweet lips
I'm falling

oh I'm on the edge and I can't look down
scared to jump cause you help me out
so I'm falling , falling, falling
keep falling , falling , falling

One word
is all it takes
then , my knees
get so weak
and somebody
help me please
I'm falling

oh I'm on the edge and I can't look down
scared to jump cause you help me out
so I'm falling , falling, falling
yeah , I'm on the edge and stepping out
afraid to love till you show me how
so I'm falling , falling, falling
keep falling , falling , falling

I'm know that we could be
so in love
it's taking over me
my mind's made up
I know that we could be
ij I just jump
if I just jump

oh I'm on the edge and I can't look down
scared to jump cause you help me out
so I'm falling , falling, falling
keep falling , falling , falling
yeah , I'm on the edge and stepping out
afraid to love till you show me how
so I'm falling , falling, falling
keep falling , falling , falling

Your voice
makes my heart melt like ...
