

# Satellite

Shane Harper

I know it's cold, but you're not frozen  
Keep your walls from closin'  
It's not what you want

When you look back on all the steps you've taken  
You don't want them wasted, buried in dust  
So just, hold on I see it in your eyes  
Take off and don't apologize  
Lookin' down from the sky

Ohhh Ohhhh Ohhhh  
Nothin' in the world can hold you down  
This time you're shootin' up high  
Sail through the air like a satellite  
You'll glow (oh oh) when you feel the darkness closin' in tonight  
You can shine bright  
Sail through the air like a satellite

Ohhh Ohhhh Ohhh like a satellite oh  
People teach you to be perfect  
Livin' then you're learnin' you're strong enough

So won't you lay down  
all your heavy burdens  
Tables will be turnin' as you touch the sun  
So just, hold on, I see it in your eyes  
Take off and don't apologize  
Lookin' down from the sky

Ohhh Ohhhh Ohhhh  
Nothin' in the world can hold you down  
This time you're shootin' up high  
Sail through the air like a satellite  
You'll glow (oh oh) when you feel the darkness closin' in tonight  
You can shine bright  
Sail through the air like a satellite

Ohhh Ohhhh Ohhhh Ohhh Ohhhh Ohhhh

Hold on I see it in you're eyes  
Take off and don't apologize  
Lookin' down from the sky

Ohhh Ohhhh Ohhhh  
Nothin' in the world can hold you down  
This time you're shootin' up high  
Sail through the air like a satellite  
You'll glow (oh oh) when you feel the darkness closin' in tonight  
You can shine bright  
Sail through the air like a satellite

Ohhh Ohhhh Ohhhh Ohhh Ohhhh Ohhhh  
And you'll float away
