

What Is Love

Shanell

Hurry hurry up I got a question, that needs to be answered
I really wanna know
I need to know about it
I never knew some many emotions
Could all add up to meaning the same thing
It's taking over about to give it in
Shackled up in these chains, I wanna live
Feeling like my freedom's gone
But I don't wanna be alone and write another sad song

I just really wanna know what is love
(What is, what is)
What is love?
(What is, what is, what is love?)
If it's so easy to let it go
Please define the word unconditional
What is love?
(What is, what is)
What is love?
What does it have to be
What is love?
If it's so easy to let it go
I wanna know, I need to know

It's never ending couldn't see it over
Keep telling myself that it's getting closer
It shouldn't hurt
But the growing pain is something that I can't explain I'm falling ev
en deeper in this ocean
But not drowning on a need
Breathing in the sea
Such a four letter word is so hard to believe, I
I can love again
Teach me how to breathe again
Show me how to trust again
It's killing me slow
Damn, I really need to know

(What is, what is, what is love)
If it's so easy to let it go
Please define the word unconditional
What is love
(What is, what is, what is love)
What is love
What does it have to be
What is love
If it's so easy to let it go
I wanna know
I wanna know
I wanna know
