

More Fun

Shania Twain

It's Monday and I hear you when you say you hate that day
Me too but there's nothin' much about we can do
Let's just get to
Countin' down the hours dreamin' of all of our favourite songs
We know the words by heart and we will shout and be singin' along
As loud as we like Friday night

More fun is what we need
Everyone is on their feet
The weekend's here and all we wanna do is be together
Get a little crazy and forget what happens later
We made it through the week
Now we're headin' to the street
More fun is what we need

One day we'll be sittin' back laughin' all about the times
We were doin' doughnuts in the parkin' lots and runnin' lights
The time of our lives
Is here and now and yes we got the power 'cause we know it all
We're just gettin' started, open-hearted, havin' a ball
And nothin' but time on our side

And more fun is what we need
Everyone is on their feet
The weekend's here and all we wanna do is be together
Get a little crazy and forget what happens later
We made it through the week
Now we're headin' to the street

The day was long but the night is young and we ain't got to worry
We're runnin' out alive but that's all right
No one need to hurry
Morning such a long way away
And we, we got all night to play

More fun is what we need
Everyone is on their feet
The weekend's here and all we wanna do is be together
Get a little crazy and forget what happens later
We made it through the week
Now we're headin' to the street
Because more fun is what we need
More fun is all we need
