

## Still Under the Weather

Shania Twain

My first lesson lsing a love was you  
Learning to live with your memory was lesson number two  
And I can't lie, baby  
I still cry sometimes  
But I've come a long way  
Towards gettin' you out of my mind  
I'm still under the weather  
But I'm over the storm  
I still miss the shelter  
Of your loving arms  
But what I thought would kill me  
Has just made me strong  
I'm still under the weather  
But I'm over the storm

Sometimes your memory still gets the best of me  
But that lonely ache in my heart  
Ain't as bad as it used to be  
And sometimes the way that I'm feelin'  
Inside doesn't show  
But I know  
I'll get over you, I've just got a long way to go

I'm still under the weather  
But I'm over the storm  
I still miss the shelter  
Of your loving arms  
But what I thought would kill me  
Has just made me strong  
I'm still under the weather  
But I'm over the storm

I'm still under the weather  
But I'm over the storm
