

# We Got Something They Don't

Shania Twain

They may say "We're done"  
That we will never win this one  
But we know differently  
They don't know you and they don't know me

We got something they don't  
A fire burning deep in our bones  
Smokin' when we're away  
On fire when we get home

Here's to hanging tough  
When no one else believed in us  
Cheers to staying strong  
They gave up but we carried on

Oh you should know that  
We got something they don't  
A fire burning deep in our bones  
Smokin' when we're away  
On fire when we get home

We got something they don't  
Flame so high  
Let's go wild  
We're on fire  
We're home  
Sweet home  
(Sweet home)  
Oh don't it taste good  
To be together

We got something they don't  
A fire burning deep in our bones  
Smokin' when we're away  
On fire when we get home

We got something they don't  
A fire burning deep in our bones  
Smokin' when we're away  
On fire when we get home

Don't it feel good  
(We got something they don't)  
We're on fire when we get home
