

# Don't Wanna Love You

Shanice

Don't want to love you  
Don't want to touch you  
Don't want you near my heart  
Don't want to kiss you

Don't want your name or your number  
And I don't want to give you a call  
Don't want to end up a lover  
Ooh, I don't want to know you at all

See you've already seen my finest quality  
You mess up everything that you ever touch  
You see it won't be long before you, do something wrong  
I won't stand around and be dogged  
That's why I

[Chorus]

Don't want to love you  
Don't want to want you  
Don't want you near my heart  
Don't want to kiss you

Turn around and miss you  
Stop me baby before I start  
Don't want to be like the others  
'Cause I don't want to end up alone

Won't let you walk on me feelings  
I see to you it doesn't matter that you can do me wrong  
You know I heard everything about your history  
Only a fool would fall in love with you now

But boy I just don't think that you'd be  
Be good for me  
I won't stick around and be dogged

[Chorus]

You know I heard everything about your history  
Only a fool would fall in love with you now  
But boy I just don't think that you'd be  
Be good for me  
I won't stick around and be dogged

[Chorus]
