

# Peace In The World

Shanice

From the north to the south  
From the east to the west  
We're praying  
All over this beautiful planet  
For peace in the world  
Peace

Check this out

Lookin' in my heart  
I got to find a way  
I wanna do my part  
I wanna make that change

There's fighting in the streets  
What's it all about  
Can we stop the hate  
Can we work it out

(say cuz') you and I can make the difference  
The love that we're feelin'  
I truly believe in  
(say cuz') you and I can make a change  
Love will show us how  
Love will be our guide

Peace in the world is what we care for  
Hand and hand we'll make a change  
Peace in the world is what we care for  
Heart to heart we'll find a way  
Yeah, we're gonna make that change, listen

Kids are starving now  
All across the world  
Let's lend a helping hand  
Save all the boys and girls

People are selling drugs  
Gangs are everywhere  
Let's come together now  
Show them that we care

Peace in the world  
So kids'll know  
Not to ever make war  
Love'll show  
That it can over power hate  
As evil disintegrates  
'Cause we got to have faith

If you do right  
There'll be no wrong  
That's why  
Shanice is singin' the song  
About love and joy  
Every man, woman, boy and girl  
To have peace in the world

[Chorus]
