

# Good Ole Days

Shannon Brown

There's a Stetson in the back of the room  
And he's movin' to a hip hop groove  
And he's doin' it like a country boy do  
(Doin' it like a country boy do)  
And there's Jenny givin' it all she's got  
She's dancin' with a bombshell blond  
They're shakin' it up on the table top  
(Shakin' it up on the table top)

You don't have to worry, what your mama said  
Just check that baggage at the front door

Welcome to the good ole days  
Get here early stay up late  
If you get funky it's okay  
There's something goin' on in here  
It's not your average atmosphere  
Everybody's so glad you came  
Welcome to the good ole days

We got a D.J., we call him Dreadlock Jones  
And he's mixing Haggard and Stones  
Keeps it bumpin' all night long  
You can two step, you can bust a move  
Be a redneck or you can play it smooth  
It's all about finding your own groove  
(Your own groove)

Forget about tomorrow and your yesterdays  
Just let it go and live for tonight  
(Tonight and)

Welcome to the good ole days  
Get here early stay up late  
If you get funky it's okay  
There's something goin' on in here  
It's not your average atmosphere  
Everybody's so glad you came
