

# I'll Always Be Around

Shannon McNally

I'd love to have you with me  
Almost all the time  
Life just isn't like that  
At least not mine

There's no need for hello  
There is little reason for goodbye  
I never need to miss you 'cause you're  
Always on my mind

No exchanging numbers  
Or promises to write  
I know I'll see you somewhere  
Sometime

I'll always be around  
When you're running down  
You can call me out  
It's better I'll always be around

It's too much like confession  
To say your name out loud  
So I guard our little mystery  
By leaving things out

If you want me just whistle  
Just put your lips together and blow  
I know I'll see you somewhere  
Where I don't know

I'll always be around  
When you're running down  
You can call me out  
It's better I'll always be around

I think that we've got a bond  
That's too good to be true

I'll always be around  
When you're running down  
You can call me out  
It's better I'll always be around

I'll always be around, oh yeah  
Oh yeah  
I'll always be around  
I'll always be around  
Whenever you need me, whenever you need me  
Just call me now baby

Yeah, I'll always be around  
I'll always be around  
Whenever you need me, whenever you need me
