

# Down On Me

Shannon Noll

Used to be, you and me, we had something  
Whats goin on, somethings wrong, your saying  
nothin  
So let it out, scream and shout, it'll eat  
you up inside  
Let it rain, share the pain, start  
Communicating, yeah  
Dont face it on your own

Let it all fal down  
Let it all fall down on me  
Let it all fall down  
Down on me yeah  
Have a little faith in me  
And let it all fall down on me

Now you know, this world is so, full of  
Heartache  
Your not alone, together I know we can make it  
Let me share the load, Im ready to go

This world try to take what you got  
Anytime ready or not  
In the end it's up to you  
Keep on punchin till you break through

Let it all fall down, down on me yeah
