

# Everything I Wanted

Shannon Noll

The past is history  
You can't go back and make it alright  
You never get to choose if you win or lose  
That's not how it goes, oh no

I know I had it all  
How much more could anyone have?  
And now I'm tryin to find what used to be  
mine  
Before I went away

Everything I wanted  
Was everything I left behind  
I never knew what I'd lose  
And everything I needed  
Was standing right in front of me  
Now I know that it's true  
Everything I wanted was you

How can I explain  
Looking back I know I was wrong  
I just couldn't see the forest for the  
trees  
What more can I say

Don't say all our bridges are burned  
After all the lessons I've learned  
Is there a chance that you could be mine  
Or am I wasting my time

Everything I wanted  
Everything I dreamed about  
Was everything I already had

Everything I wanted  
Was everything I left behind  
I never knew what I'd lose  
And everything I wanted  
Was standing right in front of me  
Now I know that it's true

Everything I needed  
And everything I wanted  
Now I know that it's true  
Everything I wanted  
Was you
