The Way She Loved Me

Shannon Noll

Desperately waiting for her to arrive Longing for strength that I lack Tears fill my eyes when I realise she's gone I know that I can't bring her back.

She used to make it so easy to love her She used to make me shine So stay if you will and I'll show you The way she loved me for a time.

Empty, I lie on the bed that we made But now I can't get to sleep She had a way of wearing my clothes And made them look better than me.

She had a heart that could light up the ocean She told me she was mine So lend me an ear and I'll tell you The way she loved me for a time.

Oh, I long to hold her Oh, I want her here to see Oh, how I ache for her next to me.

Desperate I wait for the day that I see her Hold to her deep inside The most perfect love that I wanted to be her From thte moment she caught my eye.

I light a candle for her every evening Pour me a glass of wine I will will remember so clearly The way she loved me for a time Yes I will remember so dealy The way she loved me
