

Til We Say So

Shannon Noll

Tell me what you want when the lights go out
Feel it takin' over. Can you hear me now?
We don't care what day of the week it is
Gonna dive right into the deep abyss
Ain't goin' home til we see the sun
Comin' undone, comin' undone

Ain't nothin' over til we say so
It's our world and the world don't close
Ain't nothin' over til we say so
Til we say so. Til we say so

Gonna make tonight a night we won't forget
Gonna keep on goin' til there's nothin' left
So lose yourself. Cross that bridge
Light it up, light it up... why resist?
We ain't goin' home til we see the sun
We're comin' undone, we're comin' undone

Ain't nothin' over til we say so
It's our world and the world don't close
Ain't nothin' over til we say so
Til we say so. Til we say so

There ain't nothin' over til we say so
Maybe you ain't heard so you don't know
Ain't nothin' over til we say so
Are you listening? Are you listening?

Ain't nothin' over til we say so
It's our world and the world don't close
Ain't nothin' over til we say so
Oh no
There ain't nothin' over til we say so
It's our world and the world don't close
Maybe you ain't heard so you don't know
Ain't nothin' over til we say so

Woooooahhh

Woooooahhh

Woooooahh

Woooooahhh

Alright..

Play on...
