

Citizen of planet paprika

Shantel

i came on my spaceship to save the earth
i've been to the south and i've been to the north
check me out dubbing when you hear me sing
i'm an ugly duckling and a beauty king
i'm an alien elvis, i bring love and joy
my dance might remind you of the disco boy
i'm the young i'm old i've got a heart of gold
i'm an ultimate kitsch of the people of the world
some say that i come from russia
some think that i come from africa
but i'm so exotic i'm so ironic
cause i come from the planet paprika
aiii aii aii citizen of planet paprika,
aiii aiii aiii greetings from planet paprika
some say that i come from russia
some think that i come from africa
but i'm so exotic i'm so ironic
cause i come from the planet paprika
aiii aii aii citizen of planet paprika,
aiii aiii aiii greetings from planet paprika
brazil, japan, northern pole, balkan
tel aviv, barcelona, beirut, teheran
this planet is a mess we had to interfere
now we are here so have no fear
you had to do stop because enough is enough
while fighting for oil, you forgot about love
there's a war in the east, a war in the west
there's too much death and too little sex
some say that i come from russia
some think that i come from africa
but i'm so exotic i'm so ironic
cause i come from the planet paprika
aiii aii aii citizen of planet paprika,
aiii aiii aiii greetings from planet paprika
some say that i come from russia
some think that i come from africa
but i'm so exotic i'm so ironic
cause i come from the planet paprika
aiii aii aii the citizen of planet paprika,
aiii aiii aiii look what a beautiful paprika
now come close, call me what you want,
i can be your superhero, james bond,
i'm coming your way and you can't resist
i know you want to be loved,
you want to be kissed
t's a light consuation (?)
paprika vibrations
aliens are coming to help the nations
