

You think I'm up when I'm breaking down  
I need to hide away and catch my breath,  
Big cookie's up and I'm heading out  
Leave my phone, I'm driving south of it  
Had enough of the same old time  
My senses they need reviving  
Given up on just getting by  
It's time for a brand new feeling

[chorus]

Let's all do something incredible  
Make it happen when we come together  
Just stay in here, it's so wonderful  
Incredible!

I'm gonna beat it to the highest high  
There's such a place, it moves me up and over my life  
It's so amazing what I'm feeling now  
Thank you for it, bless this house

We only comfort when times are hard  
Come on and hide away  
There's no pretense here

Don't need a thing, leave your credit card  
Put it all behind

Had enough of the same old vibe  
All our senses they need reviving  
Given up, we're on borrowed time  
Make way for a brand new feeling

[chorus]

Let's all do something incredible  
Make it happen when we come together  
Just stay in here, it's so wonderful  
Incredible!

I'm gonna beat it to the highest high  
There's such a place it moves me up and over my life  
It's so amazing what I'm feeling now  
Thank you for it, bless this house
