OVER ME

Suddenly

I feel you rush over me  
color splashes round my head  
like living in a photograph  
take him with a secret smile  
hold him on for a while  
yeah

suddenly

i feel you rush over me  
can i call my sister now  
we are rolling like a thundercloud  
all the things that you have said  
creed is good and dances dead  
but i get down down down  
i still get down down down  
i still get down

get up now cause we get  
down down down down down  
stand up so we can't  
down down down  
come up now and lets get  
down down down  
come on now and get  
down down down Yeah

I m scared to close my eyes  
dont wanna miss  
listening to the music whisper  
im never coming down  
ooooh listen

suddenly

i feel you rush over me  
oh my sister now  
wer are rolling like a thundercloud  
all the things that you have said  
creed is good and dances dead  
cause i get down down down  
i still get down down down  
i still get down

down down down down down
