

Got To Let Me Know

Shaquille O'Neal

(Intro)

(Shaquille O' Neal)

Yo, yo (yo, yo)

We been kickin it now off and off along time (along time)

But I'm frustrated I still don't know if you love me for me

The interior things yeah

Maybe it's time you start showing me (show me) you know

Gotta show me somethin uh-huh

(Chorus)

You've got to let me know just how far to let this go

Feel me (uh-huh, uh-huh) show me

You've got to take my hand show me that you understand

Feel me show-oooh me

(Shaquille O' Neal)

I took my time just to make sure my life was plush

Everything from scratch house built from the ground up

Around my family only loyal friends I trust

To love the right woman I found no need to rush

It's been years since we first met still we debate

I feel ya pain but good things come to those who wait

I'm insecure about a lot about the things I got

And if I share my spotlight you're not ready to plot

One of the main things I don't speed and take my time

But as I want to don't speed and make you mine

It's all about the future now don't wanna cease the past

Plus I know your first mistake might be your last

I know your wondering what's stopping us from getting close

If you look at it like me who benefits the most

It's not conceit it's a fact what I feel is true

Long as you keep it real with me I'll keep it real with you

Show me

(Chorus)

You've got to let me know just how far to let this go

Feel me (uh-huh, uh-huh) show me

You've got to take my hand show me that you understand

Feel me show-oooh me

(Shaquille O' Neal)

I want a woman I can love just to call my own

Pass the torture step down from the ballers' throne

Memories from my mother that we all condone

Doesn't matter if it's a mansion or the smallest home

That we live in the high priced cars ain't how you driven

I got to know what part of you don't mind giving

And strictly taking and when we made love you never fake it

Sometimes I think about all the stars who ain't make it

I know it's beautiful to have a few kids of life

And then I think back on what Robert did to Mike

In the beginning it was love every touch was soft

In the end the reign of bob style cut me off

I don't need to go to jail on the wife abuse Mr. Meaner

Or with a reputation like what Ike did to Tina

Plus it's I gotta stay Lord to love miss

Holly Berry and David how can that be justice

(Chorus)

You've got to let me know just how far to let this go
Feel me (uh-huh, uh-huh) show me
You've got to take my hand show me that you understand
Feel me show-ooh me

(Shaquille O' Neal)

So when I come through at night at time to keep you warm
I gotta let you know the deal and never lead you on
So work with me cause I've never been here before
And if I move to fast for your liking there's the door
Gotta do what's best for me what you want me to say?
Baby please don't leave you know I want you to stay
I hope that you already know that and even though
I'm in the NBA relationships are not a problem
See me big price pant-less TV chick schist can't trust
I glance up at this time to see the clock on two
I'm out the door but understand it's not a knock on you
So death do us deep like in the mob like when
I take your application are you right for the job
Until the take all the time I need for you to know me
Besides there is a few more things you need to show me

(Chorus)

You've got to let me know just how far to let this go
Feel me (uh-huh, uh-huh) show me
You've got to take my hand show me that you understand
Feel me show-ooh me (show me)
You've got to let me know just how far to let this go
Feel me (uh-huh, uh-huh) show me
You've got to take my hand show me that you understand
Feel me (help me) show-ooh me
You've got to let me know just how far to let this go
Feel me (uh-huh, uh-huh) show me
You've got to take my hand show me that you understand
Feel me
