

## I Got Love

Sharissa

It's been a while since I felt love  
Been through all the bullshit men can do  
But never have I known someone  
That made me feel like everything is cool  
He's the one that makes me smile  
I know that now I have the one  
That's gonna keep me happy all my life  
He's my baby

I got love this time  
I know this one's right  
Cause he sends me on a high  
Filled with joy cause love is  
In my life right now, ooooooh

I keep my baby satisfied  
I do everything to keep him straight  
He makes me feel beautiful  
Ladies do you feel what I gotta say  
See I can never hurt this boy  
(Because of him I'm filled with joy, yes I am)  
Whatever it is I can do  
To make him stay with me  
Then I will do  
Cause he's my baby

I got love this time  
I know this one's right  
Cause he sends me on a high  
Filled with joy cause love is  
In my life right now, ooooooh

I just love my man  
So I'ma keep him satisfied, y'all  
I just found lovin  
I'm tryin to keep it in my life  
Come on y'all  
I found love right now  
I got love, I got love

I got love this time  
I know this one's right  
Cause he sends me on a high  
Filled with joy cause love is  
In my life right now, ooooooh
