You Can Do Better

I am tired of all the lies I am tired of all these tears I cried I'm tired of all the games Why can't things just be the same way? When love was brand new There wasn't a thing he wouldn't do Now everything has changed And I am trying so hard to walk away

Deep down I know I can do better than that (Girl I know) (5x) I don't know why that I try When I can do better

So what's up with you? (What do you mean?) Is everything with you and your girl cool? (It's all right but I'm starting to realize she's not my type) Why are you wasting your time? (I don't know) I'ma keep it real and tell you the truth These conversations are drawing me closer to you (I feel the same way so what are we gonna do?) I don't know cause we both have issues

Deep down I know I can do better than that (Girl I know) (5x) I don't know why that I try When I can do better

Sometimes late at night I can't get you off of my mind I know we're supposed to be friends But my feelings are changing I can't take it My heart keeps aching I just can't keep going through I'm with him, but I won't miss him If I replace him with you

Deep down I know I can do better than that (Girl I know) (5x) I don't know why that I try When I can do better Sharissa
