Afraid Of Nothing

Sharon Van Etten

You told me the day That you show me your face We'd be in trouble for a long time I can't wait Til we're afraid Of nothing I can't wait Til we hide From nothing Nothing And you decide You throw me a lame "wait shit out" You're a little late I need you To be afraid of nothing Turning my way You show me your face We've known each other for a long time I can't wait Til we're afraid Of nothing I can't wait Til we hide From nothing Nothing And you decide You throw me a lame "wait shit out" You're a little late I need you To be afraid of nothing

I need you To be afraid of nothing
