

I Don't Want To Let You Down

Sharon Van Etten

When dreams grew black
I didn't want to see the light
Cross through hell in snow
Dreams were gone within yourself

Taught me to know what it's like
Don't shout and stay
I don't want to let you down
Plead your cause
I don't want to let you down
I don't want to let you down

Decompress
Calm your head
Teach you not to rush
Turn them out to see your words

Trust me, stay and stay
Overboard
I don't want to let you down
Overboard
I don't want to let you down
Crazy hell
I don't want to let you down
I don't want to let you down
I don't want to let you down
I don't want to let you down

One, two, three, four
