

## Just Like Blood

Sharon Van Etten

In the ocean  
Waves all around  
And they're smashing down  
Take my hand, shut your eyes  
And hope you remember

You like the position  
Watch that change 'fore we drown  
We ask ourselves, where we are now  
Who we are, what that means

You shut me off, just like a gun  
Then you run, just like blood  
Shut me off, just like a gun  
Then you run, just like blood  
Just like blood  
Just like blood

Disappear when the sun goes down  
Acid spills as you breathe  
Turn around, stare at the wall  
Bone to my mouth, and read it out

You shut me off, just like a gun  
Then you run, just like blood  
Shut me off, just like a gun  
Then you run, just like blood  
Just like blood  
Just like blood  
Just like blood
