Every Little Thing (He) Does Is Magic

Shawn Colvin

Well, I've tried before to tell him All the feelings I have for him in my heart Every time that I come near him I just loose my nerve as I've done from the start

'Cause every little thing he does is magic Every thing he does just turns me on Even though my life before was tragic Now I know my love for him goes on

Do I have to tell the story Of the thousand rainy days since we first met It's a big enough umbrella But it's always me who ends up getting wet

'Cause every little thing he does is magic Every thing he does just turns me on Even though my life before was tragic Now I know my love for him goes on

I resolve to call him up A thousand times a day And ask him if he'll marry me In some old fashioned way

But my silent fears have gripped me Long before I reach the phone Long before my tongue has stripped me Must I always be alone?

Every little thing he does is magic Every thing he does just turns me on Even though my life before was tragic Now I know my love for him goes on

And every little thing he does is magic Every thing he does just turns me on Even though my life before was tragic Now I know my love for him goes on It goes on, it goes on
