

Hold On To The Good Things

Shawn Colvin

It's a beautiful world
It's a beautiful day
An unusual time is coming our way
We're on an adventure hip hip hooray
Up in a balloon
I'm sailing with you
On top of the world
We've got nothing to do
There's a silvery lining
And the sun is shining

Hold on to the good things darling
Hold on to the silver lining
Hold on to the beautiful melodies
And leave those worries behind us

A little of this, a little of that
The recipe calls for a pat on the back
With you and me anything is possible
Friends are here to remind us

It's all about friends, it's all about love
And having someone that know you can trust
We're in this together, it's all about us
I'm feeling so good, I'm feeling OK
I'm washing my troubles right down the drain
Life's unfolding, gotta keep on going

Hold on to the good things darling
Hold on to the silver lining
Hold on to the beautiful melodies
And leave those worries behind us

Hold on to the good things
Hold on to the good things
Off we go
Hold on to the good things darling
Hold on to the silver lining
Hold on to the beautiful melodies
And leave those worries behind us
You can look to the east, you can look to the west
You can look to someone who loves you the best
So good to be part of the family
Friends are here to remind us
Hold on to the good things...
